Dear Public Service Commission,

The air quality in Arden is awful. North Carolina is supposed to be this natural beauty. It isn't. There are trees and mountains. Horrible water quality and increasing pollution, too. Sad.

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Caroline Williams
